

- Outstanding repeatability and linearity
- Dual seal design for extended reliability and longer life
- Self-aligning pivot bearing mountings
- Elastomer damped wipers for shock and vibration durability
- Potentiometric output
- VXP series for extended environmental performance

The well proven VLP/VXP series linear position sensor is available up to 250 mm stroke lengths in 25 or 50 mm increments. With self-aligning spherical bearing mounts and an improved O-ring and felt shaft sealing arrangement, the range provides up to +/- 0.1% independent linearity and positioning repeatability to 0.01 mm. Choose the VLP series for IP65 rating with temperature range -40 to +100°C, or the VXP series for extended environmental performance with IP67 rating and temperature range from -40 to +150°C - with a short term limit of 175°C. The conductive plastic resistance element technology utilised in the VLP/VXP series maintains complete and even contact with very low electrical noise, even under the most arduous physical and environmental conditions.

Specifications

Electrical stroke	25 to 250 mm (8 measurement range options)
Mechanical stroke	+1.5 mm of electrical stroke
Typ. linearity	Up to +/- 0.1% (see table)
Resolution	Infinite
Repeatability	Up to +/- 0.01 mm
Max operating speed	10 m/sec max.
Shock	50 g, 10ms

Operating temperature	VLP = -40 to +100°C; VXP = -40 to +150°C and 175°C short term
Max. supply voltage	42 V DC
Cable type	Raychem 55, 24 AWG
Cable length	600mm (screened)
Life	> 25 x 10 ⁶ Cycles
Sealing	VLP = IP65; VXP = IP67

Mounting bracket and protective cover options

The VLP/VXP series linear position sensor is available with an optional mounting bracket and a protective cover:

Mounting bracket - part no. 15858

Protective cover - part no. 4346
(For measuring ranges 50 - 100mm)
